FRANK GREENWOOD TO DISCUSS COMPUTER CENTER  
AT CONFERENCE IN WACO, TEX., MAY 5-8

MISSOULA---

Dr. Frank Greenwood, director of the University of Montana Computer Center, will present a paper on UM computer center consolidation at the 19th Annual College and University and Machine Records Conference May 5-8 at Baylor University, Waco, Tex.

The paper, entitled "The Joys of Consolidation," was prepared by Greenwood and two of his associates at the UM Computer Center, Steve S. Henry, manager of academic systems, and Dean D. Holm, manager of administrative development.

Greenwood said the UM paper "discusses how two smaller computer centers were merged to form one center to better service the entire University community."

Representatives of some 300 institutions are expected for the Texas meeting.
